Regency

Bec Douros
Interior Designer

Bec Douros, much-loved interior designer and The Block royalty, takes design inspiration from her surroundings – from the dynamic tones of ocean waves to the colours of blossoming springtime trees. She sees nature-inspired elements as evocative and exciting and loves to weave them into her projects.

Bec finds that the natural, earthy shades of the green, brown, stone and wood finishes and the silver, black, brass and gold of the hardware in the latest Galleria collection perfectly match her vision.

Her advice on how to realise your own is to get samples of every product you'd like to use in the design of your home – including handles, cabinetry colour and flooring – and put them together in a mood board.

If something isn't going to work with something else, if the style or palette feels disjointed, you'll see it there. For Bec, cohesion is essential to great design.

Galleria helps elevate Bec's projects, and will do the same for any home, including yours.
